

SAN DIEGO TO BE ONE OF THREE IN COUNTRY; ENLARGE FLYING FORCE

SAN DIEGO, Oct. 3.—San Diego, the base for the fleet air force of the Pacific Fleet, will be one of the only three naval air bases in the country, in accordance with the peace plans of the Navy, it was stated tonight by

MOBILIZE FOR JOBS.

KEEP THREE BASES.
The three bases which will be continued for the air forces of the Navy will be at Hampton Roads, the base for the Atlantic Fleet; one at North Island, San Diego, the base for the Pacific Fleet, and one

The North Island Air station, which is a repair unit of the fleet air force, is the repair base for the fleet planes and has been greatly enlarged the last two years. Frank McCarty, commander of the North Island naval air station, said that the new additions to the base are on their way here which will bring the number up to about 100. The new additions will include Navy Beach and Chatham, Mass., and the new additions will be continued, are to join the Pacific Fleet air force for duty, according to the Pacific fleet headquarters, of Capt. Harold H. Johnson, of the training

He issued a public request to governors and mayors to form the organizations and take other steps recommended by the unemployment conference.

under C. T. Johnson, Naval Air Station, Pensacola; Lieut. C. T. Curren, Naval Air Station, Pensacola; Lieut. Paul Chubb, Naval Air Station, Pensacola; Lieut. George T. Owen, Lieut. Henry F. Stanley and Eugene Williams, Naval Air Station, Pensacola Air Station; Lieut. Myron F. Brady, Third Naval District; Lieut. William H. Smith, Naval Air Station, Pearl Harbor; Lieut. Barrett

Sanctuary, Hampton Roads; Lieut. W. W. Harker, Norfolk Beach; Lieut. W. W. Brook, Norfolk; Lieut. D. A. Munk, Rockyaway Beach; Eugene H. V. Perron, Norfolk; Lieut. J. H. Harker, Norfolk; Lieut. L. D. Logan and Lieut. R. L. Fuller, Hampton Roads; Lieut. E. J. McCallister and Lieut. J. H. McCallister, Pearl Harbor; Lieut. John F. Maloney and Lieut. F. F. Fletcher, Pearl Harbor; Lieut. Arthur S. Billings, Pearl Harbor.

PLAN IS EXPLAINED.
(BY A. C. KNOX WIRE.)

WASHINGTON, Dec. 10.—An organization of the naval air establishment is being organized to coordinate the activities of the various naval air units and to coordinate the activities of the various naval air units and to coordinate the activities of the various naval air units.

CO-OPERATION NEEDED. "It is essential that the co-operation of all sections should be sought in order that the organization to provide work and assistance that we may pass through the coming winter without great suffering," said the speaker.

Of national importance that every community should at once undertake such organization in order that the work may be performed as the winter months be situated.

quency was removed. The three men were released after being held for 10 days because of lack of adequate supporting funds.

The basic naval policy is to divide the department into three main divisions. The first division has five practical branches to the air service. Two air fleet forces are based at the Naval Air Station, San Diego, where the machines are trained; two territorial patrol stations at Coco Solo, Panama and at the Naval Air Station, San Juan; and a training school at Pensacola, Fla.

and an experimental station for the
department of rigidia. Lakehurst,
N. J., which, however, is not yet an
operating station.
The firing personnel of the Navy
now numbers approximately 650
pilots.

It is reported in this endeavor."

FOUND POISON IN ROOM

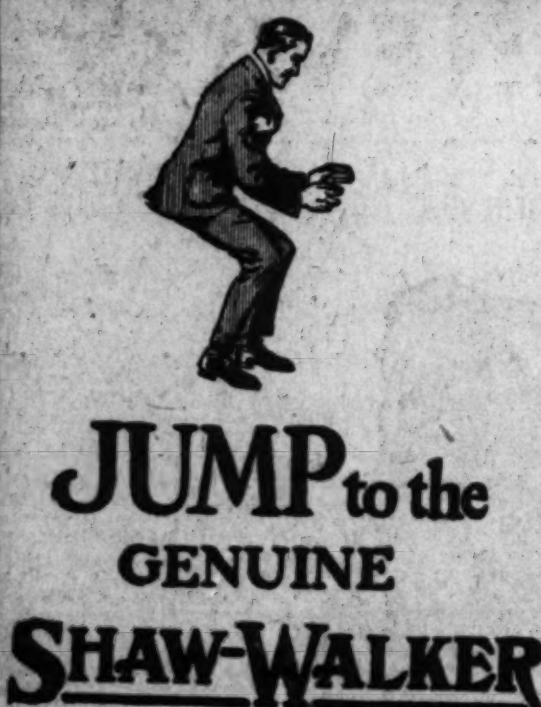

FOUND POISON IN ROOM.
*First Witness Testifies in Southard Murder Case;
Defendant Did Not Love Husband.*

[BY A. P. NIGHT WIRE]

TWIN FALLS (Idaho) Oct. 3.—A poisonous substance used as an insect exterminator supplied the theme about which was woven the stories of the first two witnesses of the State to testify in the case of Ilda Meyer Southard, charged with the murder of Edward F. Meyer, a former husband, by means of poison secured from the insect exterminator and administered to her husband's food.

The opening statement by Prosecuting Attorney Frank I. Stephens followed the sequestering of the jury. Stephens said that outside the case of the death of Meyer, although Stephens has stated that he is not a doctor, he is knowing how to be responsible for the death of three other husbands of the bride. Stephens also alleged crimes at each instance before the jury, but he did not derive from the exterminator. Only a small number of specta-

Never say "Aspirin" without saying "Bayer"

Warning! Unless you see the name "Bayer" on package or on tablet you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. All druggists sell Bayer Tablets of Aspirin in handy tin boxes of 12 and in bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monopetrolacid, of Salicylicacid. (Advertisement.)

COTTON CROP IS REDUCED.

Government Report Estimates at 6,537,000 Bales.

Condition Only 42.2 Per Cent of Normal Production.

California Expected to Have but 68,000 Bales.

(BY A. P. MORTIMER.)
WASHINGTON, Oct. 3.—Further decline in the condition of cotton during September resulted in a reduction of 588,000 bales in the forecast of production issued today by the Department of Agriculture, which places the total crop at 6,537,000 equivalent 500-pound bales.

Cotton ginned prior to September 31 amounted to 2,974,855 running bales, including 49,819 round bales, counted as half bales, 2375 bales of American Egyptian and 219 bales of sea island, the Census Bureau announced today.

To September 31, 1921, ginnings were 2,348,866 bales, including 760,926 round bales, 2845 of Egyptian and thirty-seven bales of sea island. Ginning by States this year to September 31 include: Arizona, 2879; California, 1181; Texas, 1,230,291.

AUGUST FORECAST.
A production of 7,917,000 equivalent 500-pound bales was forecast last month from the condition of the crop on August 25, which was 49.1 per cent of normal, while in August a production of 8,103,499 bales was forecast based on the condition of the crop July 25, which was 44.7 per cent of a normal.

Last year the crop was 13,439,553 equivalent 500-pound bales and its condition on September 25 was 59.1 per cent of normal, while the ten-year average production is 12,612,245 bales and the ten-year average condition on September 25 is 54.3 per cent of normal.

Production forecasts of earlier months this year, with the condition of the crop for those months, and the final production of other years with the condition on September 25 of those years, follow:

| | Sept. 25 Forecast. | Aug. 25 Forecast. | 1909 |

San Antonio, Tex., Oct. 4.—(Special.)—The following are the principal events of the day:

San Antonio, Tex., Oct. 4.—(Special.)—The following are the principal events of the day:

HAIG THANKED BY PRESIDENT.

Field Marshal Congratulated on Disarmament Work.

Japs to Frankly State Their Need of Land.

China Expecting Much From Coming Conference.

Field Marshal Haig, who commanded the British forces in France and Belgium in the World War, speaking at a grand rally of the Edinburg branch of the British Legion here, said he had written President Harding congratulating him upon what he was doing in connection with the calling of a conference at Washington on limitation of armaments and problems of the Far East, and that he had received a reply. The field marshal read the President's letter to the audience. In it President Harding said:

"I received and am deeply impressed by your letter, in which you express your sympathy for the League of Nations and your desire to see the world at peace."

"In the same letter I am assured of the league's heartfelt sympathy and strong hope that the movement may prove an important step toward the realization of these high ideals of peace and good will between the nations for the sake of which so many men of both our countries have sacrificed."

"I greatly prize the expressions of sympathy and support from an organization which holds a unique and glorious place in the affections and respect of people everywhere."

"I convey to your colleagues on the league my heartfelt thanks."

"To SUMMIT PROBLEM."

TOKYO, Oct. 4.—(Special.)—The problem of finding an outlet for her increasing population will be frankly admitted at the conference on limitation of armaments and Far Eastern questions at Washington, it is declared by Asahi Shimbun of this city. The newspaper says the government will emphasize the urgency of extending economic opportunities for the welfare of the increasing millions of Japanese.

For the purpose of increasing facilities for communication with America during the conference, it is reported by Asahi Shimbun will reconstruct the interrupted Yaguchi cable.

Japan's suggestions as to the agenda of the conference will be the subject of a statement by the Japanese delegation, which declared it will consist of more than twenty items.

While the statement was being read, Premier Hara was addressing a general meeting of the cabinet at the prime minister's residence. He declared that peace was the great aim of the conference and that the Japanese delegation was determined to discuss the various problems in fairness and sincerity.

"It is the world's desire," he declared, "to remove all possible causes for conflict and to reduce the armaments which are burdening the people."

The delegation which left yesterday includes thirteen naval officers, headed by Vice-Admiral Kato; nine army officials, headed by Lieut.-Gen. Tanaka; and fourteen secretaries.

It is understood instructions have been given to Ambassador Shidehara at Washington, which it is hoped will hasten a solution of the Yaguchi problem.

MUCH EXPECTED.

VICTORIA, B. C., Oct. 3.—Both the Chinese people and the Chinese government expect much from the conference on Far Eastern matters to be held at Washington next November. Dr. Philip K. C. Yuan, recently appointed Chinese Minister to Chile, who will act as secretary general to the Chinese delegation at the Washington conference, declared upon his arrival here today on the steamer Empress of Asia.

"My people have a good deal of confidence in the forthcoming conference because it is to be held in the capital of the United States," he said. "We have regarded America as one of our friends in the past and we hope to see the policy of the open door, or of equal opportunity in the Far East, developed along lines necessary by her relations to the western world."

He naturally was one of the leading partners in this equal opportunity and at present the chief concern is to see that this sound principle, enunciated by America, should be lived up to in practice by all the nations concerned.

ASSERTE ANGELENO IS HELD AS FORGER.

SEATTLE, Oct. 3.—(Special.)—An attempt to pass a forged check for \$45 in Second Avenue department store today, Harold Smith, alias Harold Scott, who said he is a student at the University of Southern California, was arrested by Detectives M. M. Peyer and D. J. Morrison. Smith developed to have forged the signature of J. M. Scott to a check drawn on the Bank of California, which he had made payable to Harold Scott. He said he is the son of the president of the California University. He is 21 years of age.

WILL INVESTIGATE TARRING OF ZIEGLER.

JAIL URGED FOR AUTO OFFENSES.

No Fines for Four Traffic
Violations, is Plan.

Speeders Would Get Hour in
Cell for Each Mile.

Uniformity of Prosecutions
Will be Sought.

No more cash fines in Los Angeles courts for speeding, driving to the left of a street car, driving while intoxicated, or driving past a street car loading or unloading passengers where there is not a properly established safety zone, is the first strenuous recommendation to be made for the elimination of traffic deaths here by the new Safety Bureau of the Automobile Club of Southern California.

Jail sentences for these four specific offenses will be asked for in place of fines and uniformity of prosecution by all local judges will be sought.

Motorists are willing to pay a fine for the violation they get by traveling fast, the same suggestion they get in riding on a roller-coaster, according to E. B. Lefter, in charge of the club bureau.

WANT THRILLS
"Many motorists will speed for the exhilaration they receive from traveling through spaces rapidly," he said yesterday, basing the statement on an exhaustive investigation of traffic accidents throughout America.

"They are willing to take a chance, although they know they are violating the laws of the State. The fact that there is a chance of being arrested adds to the exhilaration. They are willing to pay for this exhilaration with the fine which they believe is to be forthcoming if caught. The desire for this sensation is the same that causes roller-coaster amusement park."

Instead of a dollar a mile as a fine for speeding above the legal limit, the Auto Club recommends an hour in jail for every mile in excess of the limit.

FOUR A MILE
It is in a community where the limit is thirty miles an hour, a motorist is arrested for going forty, he should have ten hours in jail for the first offense, with no option of a fine, contends the safety bureau.

In the four offenses already named, no fine should be assessed at any time, a jail sentence being substituted. It is contended, if a motorist offends a second or third time, the sentence should be doubled or tripled, it pointed out.

The club doubts if there could be any second or third offenses. An example is cited in Orange county, where Judge Cox, on account of his inexorable determination to mete out justice to speeders, has never had to sentence a motorist to jail a second time.

That the same would be true in Los Angeles is a club contention.

Fails to Save Man Who Knifed, Robbed Woman.

Although Madonna Tucker, an attractive young woman, told a jury in Judge Williams' court yesterday that Frank Alvarado was with her on the night he was accused of assault with a deadly weapon upon and the robbery of Carrie Hodges, 1114 S. Spence street, the jury found Alvarado guilty on both counts.

Miss Hodges, according to testimony, was held up and robbed of \$1 and a purse valued at \$7, and then was cut on the arm and under the heart by her assailant.

Alvarado will be called today for sentence.

LOS ANGELES WOMAN'S SONG STIRS INTEREST.

Dedicated to President Harding and written for the purpose of aiding disabled veterans of the World War, a song, "Wave On, Bright Stars and Stripes," has aroused much interest among ex-servicemen and their friends here, where the author, Mrs. Charles Almon Cox of 435 Stanford avenue, is well known.

Mrs. Cox wrote both the words and music for the song, which extols the sacrifice of American soldiers on the battlefields of Europe.

SAN JUAN BASIN COUNTRY SHOWN.

Full Page of Photographs of
Rich Region in "Times"
Retrospective.

The Times retrospective section next Sunday will contain a full page of photographs showing the wonderfully rich and scenic country through which the proposed railroad, to tap the resources of the great San Juan Basin, will pass.

Historic spots and the present splendid development of the rapidly growing cities of Anaheim, Fullerton and Orange will be a feature of this issue under the caption "Sight-Seeing Trips Through Southern California."

Cloth of gold again is becoming popular as material for evening gowns, says Dame Hamilton's fashion page, where will be found the latest word in women's wearing apparel, taken at random from the city's big stores and popular shops.

Among the striking pictures of special news significance will be found two photographs of the big oil well fire at Signal Hill, Long Beach, taken from an airplane at 1:15 o'clock on the morning of the blaze.

News photographs from everywhere in which events of foreign and domestic importance are reported by the camera. It's a great issue, don't miss it.

GLENDALE INDORSES MOVEMENT.

Thriving City's Chamber of
Commerce Takes Hand in
Advertising Campaign.

Through James M. Rhodes, secretary of the Glendale Chamber of Commerce, the All-Year Club of Southern California was advised yesterday that "the fastest growing city of its class" had formally indorsed the all-year movement and voted to appropriate \$100 a year for the club's advertising fund.

The action was taken at the instance of Mr. Rhodes, who has been for some time urging the wisdom of affiliation in the co-operative community advertising campaign to tell the world of the Southland's attractiveness as a place of residence twelve months in the year.

The support of other interests in Glendale for the All-Year Club is also being sought by Mr. Rhodes. It is expected that the amount appropriated by the City Council will be considerably swelled from other sources.

A considerable measure of support for the all-year movement in the counties and communities outside of Los Angeles is now in prospect. It was stated at the club's headquarters yesterday, and several other municipalities are expected shortly to take action similar to that of Glendale. The all-year advertising drive this summer has been of great influence because of its clear demonstration that advertising could be done jointly by Southern California as a whole that would benefit every section.

MCCOY ARRAIGNMENT DEFERRED FOR WEEK.

Due to faulty phrasing of an indictment, the arraignment of Norman Selby, pugilistically known as Kid McCoy, was put over yesterday by Judge Reeves for one week. Selby is charged with being implicated in a fraudulent deal in stock of the Texas-Atlantic Company, an oil concern. He will be arraigned next Monday.

ACCOUNTANT BANKRUPT.

James Gwyn, an accountant of this city, filed a petition in bankruptcy in the United States District Court yesterday, giving his debts as \$23,727. He schedules no assets.

BORDER PASTOR WOULD RETIRE.

Rev. David Roberts Long in
Arizona Ministry.

Dodged Bullets in Bearing
Message to Mankind.

Battled Through Bar-rooms to
Rescue Sinners.

Thirty-six years in the ministry, covering work on two continents, Rev. David Roberts of Chandler, Ariz., will ask the Southern California conference of the Methodist church, which meets in annual session at the University Church today, to relieve him of church work at the age of 74 years.

Mr. Roberts has ministered to the spiritual wants of the people of Arizona for twenty-seven years. He has ridden the border. Bullets have cut his saddle bag; he has been lost in sandstorms; he has known the terrible thirst of the desert.

From one of the States to the other, the gaunt figure and kindly face of Pastor Roberts is welcomed by cowboys and ranchers alike. Mr. Roberts came to Arizona in his pioneer days and it was not until last year, the first time in more than a quarter of a century, that he found time to attend the conference.

Mr. Roberts achieves rather than talks. At the age of 64, when most of men are seeking the Army railroad list, Mr. Roberts left the call of the boys in the World War, and went to Camp Cody as camp pastor. From there went to Camp Dix. He was used to camp life, for in his early days he was a soldier. He has been in every out-of-the-way place imaginable. He has gone into bar-rooms and fought his way to men he was determined to save. He has known all the hardships of life in a new country.

POLICY OF CHURCH.

It is the policy of the Methodist Episcopal Church to set an age limit of 45 years for the ministers. The annual conference has the privilege of asking the brother to retire on account of the age limit. The pastor, on the other hand, has the right to demand his retirement. Often ministers are retained beyond the age limit.

In discussing this phase of his pastorate, Mr. Roberts said: "In my case, being in my sixty-ninth year, I shall ask, at the next annual conference, to be placed on the retired list."

Mr. Roberts has preached gospel for thirty-six years on both sides of the world. Thirty-one of these were in the active ministry; a member of the Southern California conference. Six of these years were spent on the Pacific Coast in California, and twenty-seven in Arizona.

Last year at the conference held in Long Beach, a motion-picture producer wanted to use the stirring life story of Mr. Roberts in a scenario, depicting the courage of a Christian missionary in Arizona, but Mr. Roberts refused to be a hero.

BORN IN WALES.

Rev. David Roberts was born in Wales in 1847. In 1874 he came to America and eventually entered Claverack College and the Hudson River Institute in New York. He then took a course in Boston University, and shortly thereafter came West. He first served at Stafford, when he came to Arizona, and since then has held pastorates at Tombstone, Bisbee, Needles, Williams, Glendale, Mesa, Benson and Sonoma. He has been serving ever since.

Mr. Roberts was married at Sonomaville. His three daughters were born of this marriage.

"After October 12," he said, "I plan to go to Glendale, and join my family. I have loved the work in the West, and especially in Arizona. So with the best of good wishes for the citizens of Chandler, I lay the armor down."

WAGON DRIVER HURT.

Youth Hurled From Seat to Pavement, Perhaps Fatally Injured.

Plunging from the seat of a bakery wagon to the pavement yesterday, Charles Moore, 19 years of age, 241 North Avenue 16, was perhaps fatally injured. The accident took place at Pico and Hill streets.

Mr. Moore was taken in a police ambulance, he was treated for a fracture of the skull and other injuries.

Witnesses declared that the youth slipped while loading the wagon, and fell headlong to the pavement.

STAYING TIME.
Kansas City judges disposed of fifty-two divorce cases in three hours last Monday morning. It was trying work, but it indicated real Los Angeles speed.

THE SPOTLIGHT.
New York has a great searchlight capable of throwing its beams 140 miles out at sea. At that, it is unable to locate a place where a man can get his hair cut for a quarter.

HOME AGAIN!
They are celebrating old Home week in the police department. When there is a homecoming, it is to be done there is nothing like letting George do it. It is up to Hollywood to behave.

SOUNDS FAMILIAR.
Diet-Ary, Brady says that he will try Escobar Arduvillo within sixty days. By that time San Francisco will be impatient for another shot. But diet attorneys have made threats and promises of old.

THE MERRY-GO-ROUND.
Holding office in Los Angeles is the same as being under fire. Whether a man is Mayor, Chief of Police or District Attorney the shooting goes on just the same. An official is either being investigated or is investigating somebody else. Political life is a wheel and sometimes a man is broken on it.

THE WORLD INVENTED.
Philadelphia is going to have a world's fair in 1926. By that time the nations will be ready to begin to prepare to come to talk about the possibility of disarmament and Philadelphia would be a good place to start a real peace. Philadelphia had a centennial exposition in 1876 and can now be depended upon to wake up every fifty years.

THE RED RAVEN.
Lena Trotsky, the Red War Minister of Russia, made a speech to 10,000 soldiers the other day. He told them to think of peace but keep their rifles over their shoulders and at hand. That is the sort of preparation that always winds up with a scrap. It is like teaching children to love one another while carrying rocks.

THE BIG FOUR.
President Harding declines to increase the number of American delegates to the world's retrenchment convention. Messrs. Hughes, Root, Lodge and Underwood will be the sole representatives of the United States. If they cannot disarm the nations of the earth no one can. This is a matter in which calm and collected conference can go farther than feverish and sordid speeches.

TAKE A VOTE.
There is no objection to taking a straw vote or referendum on the question of a site for the public library. There was once a popular vote on the issue and Pershing square was the choice by a considerable majority. It is believed that this feeling still maintains, but there is no reason why the temperature of the community should not again be taken. There is no need for quibbling about it.

REACHING THE AGENDA.
The experts are already preparing the agenda for the forthcoming Dempsey and Willard conference. In the reduction of armaments it seems to be agreed that the arena shall be reduced to eighteen feet. This will enable the principals to embrace one another without wearing in the approaches. It appears to be also agreed that kneeling is barred. This may seem like a relapse into the dark ages of war and strife, but we are assured that the decision is made for salutary reasons exclusively.

DARKING THE FILMS.
Long Beach officials decline to permit the films of the Dempsey-Willard fight to be shown in the city. There is too much hugging and caressing in the pictures. Long Beach is striving to get away from that sort of thing. But the point is that when it is desired to see a picture it can easily be done without a censor. If Long Beach does not want to see the film of a couple of massive battlers holding hands, why that settles it. There will be no showing in Long Beach.

COUNTING THE VOTES.
Whenever a strike vote is taken in any of the unions or brotherhoods it appears that 98 per cent of the membership is in favor of the strike, but the matter is put in such shape that the officers or leaders of the union dominate. One may be able to find hundreds of members opposed to the strike, but when the ballots are counted by the officers of the union—the result is always the same. There is always the implacable 98 per cent. How do they get it? A former engineer says it is time for the public to take the bluff on one of these 98-per cent strikes. He intimates that the vote is always doctored and that there have been many cases in which a large majority of the members have actually voted against a strike and yet the usual 98-per cent endorsement has been announced. It should be pretty hard to make the community believe that in every labor dispute 98 per cent of the workers are ready to throw up their jobs and quit without taking thought of the morrow. The individual members of unions should hedge their bets about with safeguards to assure them of a dry vote and an honest count.

CENSORSHIP—CAUSE AND EFFECT.
Censorship is an unpleasant word. The original censor was a magistrate of ancient Rome who regulated the morals and manners of the community—and incidentally he did not prove the salvation of Rome, at that. The Times strongly disapproves of the censorship idea, which calls for such peculiarly sentimental attributes of deep and abiding wisdom and understanding that few ordinary mortals could ever hope to attain. It puts altogether too much arbitrary power in the hands of persons who are not necessarily equipped by divine providence with the essential acumen to wield it—and in the case of the motion picture industry, which has become a vital and amazingly popular form of universal public entertainment, it is incredible and absurd that any small body of persons should be given the power to tinker with, make over or completely ban its works, wrecking tons and destruction, without public taste and opinion having any say in the matter.

Nevertheless, it is well for this great industry to indulge in a little heart-searching and introspection and realize just what has occasioned this impressionistic cry for censorship. It has not been censorship in the past, it is not exactly guiltless in the present. The effect of censorship will be bad, unfortunate, regrettable, but the cause for it has been even more so. We don't want censorship, but we do demand that so great and far-reaching an industry be properly cognizant of its own responsibilities. It has heard the rumblings of the censorship menace for, in these many years; it has seen the writing on the wall. But not until the menace was actually at its doors, not until it had created public decency beyond the limits of tolerance, did it undertake a housecleaning that should never have been necessary. For some reason difficult to appreciate the motion-picture industry has permitted itself a grievous lousiness, shown a marked penchant for depicting humanity's worst passions, catering to the lower instead of the better public taste, wallowing in the sensual, the crooked, the debased and offering it to us as "realism" and "art"—both in the most depraved forms. This has, of course, not been general, but it has been sufficiently frequent to arouse decent-minded men and women to the notion that some drastic remedy must be administered.

That the motion-picture industry was cognizant of this state of affairs, and conceded the necessity of measures for improvement, was sufficiently evident when an association of the most important producers published their fourteen points of virtuous resolve a few months ago. They were good resolutions, covering most of the points at issue. Lived up to, they can leave no loop-hole for cynicism.

Yet it is still a hazardous matter to visit a picture show merely upon the attraction of its title or the eloquent passages of praise belched forth by the press agents. It is still a risk to take one's children to a show that one has not previously inspected oneself. The motion picture, the crooked, the gambler, the prostitute, the profligate party of amazing luxury and glamour, rape and near-rape, sordid intrigues, domestic infidelity are still the pet themes of at least half of the pictures offered for public entertainment. No matter how they are clothed, no matter what the supposititious moral involved, the fact remains that this sort of "entertainment" introduces a side of life to millions of people who would otherwise never come in contact with it. It implies that what is infinitely small and common is placed there, wholesome interests, sweet romance, domestic virtue, honesty, loyalty and clean adventure. Many producers have been at pains to convey the impression that this is the only side of life worth portraying, that "realism" without vice and crime goes awry. Yet the very producers of these precious "fourteen points" it was obvious that the producers did recognize the viciousness of these ideas, did see multitudinous avenues through which their vicious art could be exploited without them.

Through the pictures millions of us have visited scenes and places and associated with human scum with which we should never have come in contact in ordinary life. Young people have been introduced to company and conditions at the pictures which their parents would have shuddered to have them frequent in real life. Thousands of parents will testify to their shocked embarrassment when they have in all innocence visited presumably clean and decent plays with their sons and daughters, only to find that, with the precious "moral" alibi, scenes of dissipation, crime, crime have been artfully interpolated, faithfully, disgustingly portrayed, and that, unknown to them, they have introduced their children to a dire and dirty knowledge.

The recruiting of the "eminent authors" was heralded with so much promise for the "elevation of the picture industry." But even the authors, the writers, the producers with the same brush. Two famous women authors have duly interpolated scenes of disgusting revel into their "first stories" written directly for the screen—the one a wealthy profligate party carefully portraying the vice of the rich and the other a low drinking and vice house peculiar degradation, to which, forsooth, the pure heroine goes, after leaving her husband, to hunt the proud lover who took to this life because she failed to elope with him when he asked her! In both cases the pure heroine is apparently quite at home in the degradation to which she voluntarily goes.

Hence neither the title, the author's name, the producer nor the fame of the actors can be safely taken as a criterion by the public of the kind of play it will see. Some of our actors and actresses are producers of our stand indubitably for decent, entertaining plays—God bless them—and the fact that these people flourish and prosper exceedingly and are beloved of the public is the best evidence that decency does pay and that decency is what the public wants. That these producers and actors been in the majority there would have been no cry for censorship.

Whenever The Times has denounced a salacious play it has been deluged with letters of thanks from the public. But, for the sake of the motion-picture industry, which should never have been a salacious play to denounce. The only possible excuse for an unpleasant play, for a play viridly depicting immorality, is that it is a great play, a mighty classic making a hideous and poisonous a human body. The vicious play, the smutty plays that have been exhibited under the guise of great moral lessons have never risen to greatness—they have been just exactly what they are, specious excuses for the exploitation of vice.

These, then, are the basic causes of the

"Just Before the Battle, Mother."

edge of the ocean, how easily and dunes are converted into turning basins. "Los Angeles can never outgrow her harbor," said one of their number yesterday. "The natural facilities are there for a host of sufficient extent to accommodate the trade of the world."

While our visitors are not insensible to the attractions of our climate, their first interest is in our commercial and industrial possibilities. They ask many questions about our hinterland, about the possibility of securing crops and about the supply of raw materials. They tell us that in hydroelectric development we are leading the world. The romance of the snow awakens their lively interest. It quickens their imagination to learn that the great ranges of brown mountains through which they pass to arrive in Los Angeles comprise one of the greatest storage basins for hydroelectric energy to be found anywhere on earth. They recognize that our supply of white fuel is inexhaustible, that it cannot be worked out like oil fields and coal beds, but that it will be renewed every winter as long as the earth continues to revolve and the seasons follow their course.

It is in the big things in Los Angeles that the members of the American Bankers Association are interested. They are concerned with the possibilities of our future growth; and some of the things the more eloquent among their number have said are so complimentary as to make our own citizens wonder. Their visit is an epochal event in the history of Southern California. Perhaps it may prove to be epochal also in the history of the American Bankers' Association.

GERMAN FOREIGN SALES.
The expansion of German commerce in the twenty years immediately preceding the war was a threat against the international trade of all other countries and aroused both enmity and apprehension. One of the means employed to extend the sale and use of her commodities was the sales agency, and it was found everywhere that this one gets drunk and that one is a crook in business—but we should never dream of permitting ourselves to be shocked by these things at some of the perpetrations of these people, to gossip about them, to explain that So-and-so and his wife are not really married, and that such and such a man has been divorced three times, that this one gets drunk and that one is a crook in business—but we should never dream of permitting ourselves to be shocked by these things at some of the perpetrations of these people, to gossip about them, to explain that So-and-so and his wife are not really married, and that such and such a man has been divorced three times, that this one gets drunk and that one is a crook in business—but we should never dream of permitting ourselves to be shocked by these things at some of the perpetrations of these people, to gossip about them, to explain that So-and-so and his wife are not really married, and that such and such a man has been divorced three times, that this one gets drunk and that one is a crook in business—but we should never dream of permitting ourselves to be shocked by these things at some of the perpetrations of these people, to gossip about them, to explain that So-and-so and his wife are not really married, and that such and such a man has been divorced three times, that this one gets drunk and that one is a crook in business—but we should never dream of permitting ourselves to be shocked by these things at MAY CLEAR WAY FOR PORT WORK.

McKee Seeks to Get Hellman to Release "String."

Hopes to Provide for Sale of Harbor Bonds.

Board Approves Plans for Immigration Station.

Commissioner McKee announced at yesterday's meeting of the Board of Harbor Commissioners that he hopes to get from Irving H. Hellman a release which will permit the city to sell at once \$1,000,000 of 1921 Harbor bonds, so that construction work can be resumed at the port.

Under the "string" clause of the agreement between the city and Mr. Hellman when the syndicate headed by him bought at secret sale \$11,000,000 of the city's bonds at a discount of \$1,000,000, for the purchase of the distributing lines of the Southern California Edison Company, it was provided that the city must not sell any securities until sixty days after the delivery of the power bonds to Mr. Hellman. On account of temporary litigation, it may be months or years before the bonds are delivered to Mr. Hellman, if ever, and in the meantime the hands of the city officials are tied by the terms of the "string" clause.

Commissioner McKee said yesterday that he had talked with Mr. Hellman and that the latter assured him that he (Mr. Hellman) is personally willing to assist the city in every way, and does not desire to hamper development projects. The advent of Mr. Hellman's syndicate associates will be necessary before a waiver can be secured, but Commissioner McKee hopes that ultimately a release will be given.

In the meantime, the Board of Harbor Commissioners yesterday issued the following statement and directed that it be given publicity, especially at the harbor:

"The undersigned of the harbor district. The condition of the harbor district will not allow the city board immediately to proceed with work, yet its chief concern is to start construction and to relieve the labor situation.

"When work begins, preference will be given men with families and bona fide residents of the city of Los Angeles. The new board desires to express its kindest sympathy with those in distress and to do so as speedily as possible.

"(Signed) "BOARD OF HARBOR COMMISSIONERS."

On account of lack of ready funds, the Harbor Department laid off between 100 and 150 men, leaving the Pacific Mail Steamship Company's docks and other improvement work partly completed. If Mr. Hellman's release is obtained, \$1,000,000 of 1921 harbor improvement bonds, the securities can be sold and work can be resumed.

The harbor board yesterday approved the plan prepared by Harbor Engineer Vincent for the new United States immigration station on pier 1 at the harbor, which will cost \$1,000,000 and will be leased by the city to the government. The plans will be forwarded to the War Department at Washington for immediate approval, and when this is given, construction will start.

MUCH ADO ABOUT BUYING STOVE.

Council Refuses to Pay for Heater Even if Committee.

The members of the Social Service Commission shivered with the cold in their rooms in the City Building on Normal Hill and they asked the City Council for an appropriation of \$11 with which to purchase an electric heater. No heater arrived and the members of the Social Service Board were still shivering during their meetings so they bought a stove and sent the bill to the City Council, which yesterday approved the commission to return the stove to the store from which it was purchased.

"Let the commission secure a stove from the city's purchasing department by order of the Council, in the regular way," said President Cresswell.

AGED WOMAN SEEKING HUGE MONEY BALM.

LIVED YEAR WITH MAN WHO REFUSED TO WED HER, CHARGE IN SUIT.

Attempts to commensurate a girlhood romance have failed for Mrs. Lettie Johnson, now 80 years of age, who filed a breach of promise suit for \$50,000 damages yesterday against Samuel Page, seven years her senior.

Her complaint recites that Mr. Page asked her to marry him in Chicago, Aug. 14, 1913, and that later at his suggestion she came to Los Angeles in the belief that he would marry her immediately upon her arrival.

For almost a year now she has "been living in the home of and subsisting with said defendant," reads the complaint, and "he has failed to keep his promise."

At the time of the death of her husband, Mrs. Johnson says, Mr. Page wrote to her and then went to Chicago, where he revived the love that had existed in their younger days.

Mr. Johnson resides on South Main street, she denies that she has visited any apartment with the plaintiff.

Names of Speakers at Next Gathering Announced.

(SPECIALS DISPATCH.)
MONROVIA, Oct. 1. — Tetanus that developed from infection in a injured thumb caused the death of A. M. Masten, watchmaker at the W. G. Barke jewelry store. Masten was injured when a car in which he was riding skidded and turned over. His injuries were first considered only slight, but died of poisoning followed by tetanus and pneumonia. He leaves a widow and 7-year-old son. The funeral service will be held tomorrow at 3 p.m., from the Tenaker chapel.

And you, like thousands of others, will remember to say "Test Toasties" to your grocer—instead of just corn flakes.

Tanlac Accomplishes Remarkable Results In Geo. H. Nickels Case

Prominent Wisconsin Man Says Tanlac Promptly Relieved Him of Bad Case of Stomach Trouble—Gains 27 Pounds and Feels Fine As a Fiddle.

It is an unquestionable fact that Tanlac has been widely endorsed by well known men and women than any other medicine on the American market. One of the latest to testify is George H. Nickels, well known lecturer, residing at 217 West 11th St., Milwaukee, Wisconsin.

"Tanlac has not only completely restored my health, but I have actually gained 27 pounds in weight," said Mr. Nickels in referring to the remarkable results he had derived from the medicine.

"For something over six months my stomach was very badly disordered. I suffered terribly from indigestion and dyspepsia. At times I would be in great distress and an uncomfortable bloated feeling for hours after eating. I had no appetite scarcely and the little I ate would often make me feel sick. My head ached and I felt like it would burst and I was so nervous I trembled like a leaf. When I got up in the morning, I was so weak and dizzy. I couldn't trust myself to walk around and I just hurt all over."

"Tanlac has brought about a wonderful change in my condition. For I am now enjoying the very best of health. My appetite is splendid, I sleep peacefully. Everything agrees with me perfectly. The nervousness, headaches and dizzy spells are all gone and I never have any more pain."

"I am only too glad to tell others about the wonderful results Tanlac has done. It has no equal."

Tanlac is sold in Los Angeles by the Owl Drug Co. and by leading druggists everywhere.—(Advertisement)

GEORGE H. NICKELS.

Will Life Be as Good to You?

The man whom success has touched with her magic wand shrewdly fortifies his fortunes with good health. Wise business men know the cash value of a healthy mouth; they take good care of their teeth.

Pyorrhea strikes four out of five past the age of forty and thousands younger.

If you would pass the noon of life and go down the sunset trail vigorous and strong, watch your gums!

At the first sign of tenderness or bleeding, take heed. That is Pyorrhea's warning.

If this disease gets beyond control your teeth are doomed.

As Pyorrhea gains headway the teeth loosen at the roots, drop out or must be pulled; pus pockets form; dead gums seep, seep, seep throughout the system.

If you would prevent Pyorrhea, consult your dentist regularly and brush your teeth with Forhan's For the Gums.

Forhan's will prevent Pyorrhea, or check it in its course, if used consistently and used in time.

But don't wait! Start using Forhan's now.

Forhan's For the Gums is the scientific formula of R. J. Forhan, D.D.S. It is an excellent dentifrice, keeping the teeth white and clean and the gums firm and healthy. 35c and 60c. All druggists.

Forhan Co., New York Forhan's Ltd., Montreal

Problems Facing Restaurants Proprietors Told.

Prices and Service Discussed by Association Head.

(Continued from First Page.)

which is now only awakening to its importance and opportunities.

TWO BATTLE CRIES.

"As an industry we suffer somewhat from unfair discrimination. The public seems to cheerfully pay any price for luxuries, but quickly grumbles at the price of necessities. During the post-war period the public had but two battle cries, 'Carry Your Own Lunch' and 'We'll Overhaul'."

"An article in a recent Chicago paper stated that the undertaker's profits were 100 per cent. Whether the dead are qualified to judge the wearing qualities and finish of a coffin is something I will leave to the spiritualists. It was claimed that six funerals a year would make good returns on their investment. We are trying to keep people alive by feeding them as economically as possible and we must feed thousands daily to make a profit."

In reference to the prices of food served in restaurants, Mr. Welch added:

"I have no brief for any

PLEDGES STATE BANK DATA. Resources to Be Published, Says Comptroller; Tax Cut Delay Blamed on Congress.

A question which has caused dis-
sent in the bank world for many
years was settled yesterday when a
statement from D. R. Crisinger,
comptroller of the currency, was
made at the meeting at the Alexan-
dria Hotel of the American Bankers
Association, stating that hereafter
statements of the condition
and resources of national banks
will be published, similar to the
statements of state banks which
have been published for years.
In announcing on the message
board the statement of the
comptroller, Mr. Crisinger said
that the first of the first
statements will be for the first
quarter of the year, and that the
statements will be published for all
quarters of the year, as revealed
by the statement of the banks to
be placed before the public.
The statement of the banks is
made at frequent intervals, and
it is stated that the statement
will be published every thirty days.
The statement of the banks is
made among all the banking agen-
cies of the country. Furthermore,
it is stated that the statement
will be published for the first
quarter of the year, and that the
statements will be published for all
quarters of the year, as revealed
by the statement of the banks to
be placed before the public.
The statement of the banks is
made at frequent intervals, and

HEAVY CALL FOR LIBERTY BONDS SEEN

Comptroller of Currency
Tells Bankers Government
Securities Are Booming.

That Liberty and Victory bonds
probably will be a surprisingly at-
tractive investment within a year or
two was the opinion expressed last
night by D. R. Crisinger, Comptroller
of the currency, who is here
from Washington, D. C., to address
the American Bankers' Association
convention.
Liberty and Victory bonds have
been picking up considerably here
of late, because of the low redem-
ption rates, said Mr. Crisinger.
"As money becomes easier, govern-
ment bonds will grow stronger,"
he said. "It is probable that they
are to be bought for 90% of their
face value." Mr. Crisinger states that small
investors, as well as large ones, are
buying Liberty and Victory bonds at
present. Business conditions in the
East are slowly but surely improv-
ing, he asserts; but there is grave
doubt in his mind as to the likeli-
hood that the unemployment prob-
lem will be solved as a result of
concessions. He thinks it will have
to work itself out by the natural
processes of adjustment.
Explaining announcements that
he intends to call for State bank
statements at the time national
bank statements are published, Mr.
Crisinger said he simply told
bankers in Philadelphia that if State
banks the country over wish to make
a call when the national bank calls
are made, and submit their state-
ments to him, he will consolidate
them and publish the consolidated
report at the time national bank
statements are published.
"Such a procedure would give the
financial world an interesting insight
into the financial status of the
country from time to time. I am not
advised as to whether or not the State
banks intend to accept my proposi-
tion," he said.
Commenting upon the report that
a campaign is soon to be staged to
call out of stocks and corners penny
banks, tin cans, old socks and other
hiding places \$2,000,000,000 which
is believed to be out of circulation in
this country, Mr. Crisinger said:
"I doubt if there is any such sum
of money tucked away out of gen-
eral circulation in this country, but
no doubt there is a large amount ac-
cumulated in various nooks and cor-
ners. It would be splendid if most
of this idle money could be coaxed
into the savings banks."

CONFERENCE ON PUBLICITY.

Bankers Discuss Advertising and
Executive Council Meets.

The feature of the closing events
of yesterday's program of the bank-
ers' convention was the conference
on bank advertising and publicity
held in the evening in Choral Hall,
Philharmonic Auditorium, under the
supervision of the public relations
committee of the American Bank-
ers' Association, and with the co-
operation of the Financial Adver-
tisers' Association.
Francis H. Sison, vice-president
of the Guaranty Trust Company of
New York, was chairman of the
meeting. Thomas H. McDermott, in-
coming president of the American
Bankers' Association, was scheduled
as the chief speaker. Other ad-
dresses were on the subject of finan-
cial advertising. The meeting later
resolved itself into a round-table
discussion of modern business build-
ing for banks.
The bankers closed a busy pro-
gram of committee meetings with
sessions of the public relations
committee, the committee of five,
and the executive council. The lat-
ter meeting took place at 8:30 p.m.
under the chairmanship of John S.
Drum, president of the association.

BANKERS ENTERTAINED.

Delegates to Convention Guests of
San Francisco Association.

More than 1000 eastern bankers,
en route to Los Angeles for the
convention, stopped off in the Bay
City and were entertained by mem-
bers of the Associated Banks of San
Francisco. Headquarters were
opened in the Palace Hotel and ar-
rangements for golf, sightseeing
trips and other diversions were
made for the visitors.
Bankers who return east by way
of San Francisco have been invited
to take advantage of the headquar-
ters, which will be open after the
convention, with J. F. Burgin in
charge.

ing of boxing matches, sporting
events, revue, etc., followed by a
buffet supper. This entertainment
is provided for the members of the
American Bankers' Association by the
Los Angeles group of the In-
vestment Bankers' Association.
Theater party and supper—For the
women of the convention. While
the smoker is in progress the women
committee at a theater party, followed
by a supper.

BANKERS GET WORK STARTED.

(Continued from First Page.)

Bankers, chairman of the
board of the First National Bank,
will formally welcome the delegates
when the convention meets this
morning, response to which will be
made by John H. Puellicher, second
vice-president of the association.
Mr. Puellicher is president of the
Marshall & Halsey Bank of Mil-
waukee. Coadjutor Bishop Stevens
will deliver the invocation.
Tonight's dull card will be given
his final departure paper; the
pipes will be blown and the man
from Dubuque Ferry will swap stories
with the president of the First Na-
tional in Chickahiny, the while their
ears are attuned to the music pro-
vided by the dull thrud of the box-
ing gent as they deftly swat and
counter-swat. There will be sport-
ing events of the sundry and divers
kinds, the whole topped by a buffet
supper. This is the collection of
the Los Angeles group of the In-
vestment Bankers' Association to the
festivities of the week. While the
smoker is in progress the women,
accompanying the delegates will be
given a theater party followed by a
supper.

REWARD OFFERED.

Standard Oil Company Seeks to
Check Station Hold-ups.

The Standard Oil Company yester-
day offered a \$100 standing reward
for information leading to the arrest
and conviction of men who have
held up or should hold up the com-
pany's service stations. A dozen
such hold-ups have occurred in the
last year.
This action results from two hold-
ups Sunday night, when bandits
operating in automobiles, robbed
the attendants at stations at Forty-
sixth street and Moneta avenue, and
at Sixth and San Pedro streets.
Information regarding these or
other robberies should be sent to the
police.

BANKERS TO ADDRESS NEGROES AT CHURCH.

John Mitchell, Jr., president of
the Mechanics' Savings Bank, Rich-
mond, Va., a delegate to the Ameri-
can Bankers' Association Con-
vention, now in session in this city,
will speak to the negroes tonight at
the First A. M. E. Zion Church,
Pico and Paloma streets. A mu-
sical program will be given in con-
nection with the address. Mr.
Mitchell is a pioneer negro banker.

LOCAL CONVICT SLAIN.

Killed by Fellow-Prisoner after See-
ing Dueling Film.

After witnessing a motion picture
of dueling and bull fighting at the
San Quentin penitentiary yesterday
afternoon, Harold Wilson, 20 years
of age, serving four years for bur-
glary in this city, was stabbed to
death by Louis Koultouris, a "lifer"
convicted of murder at San Francisco
in 1915.
Koultouris attacked Wilson as they
were filing out of the prison theater.
Wilson defended himself with a
knife and inflicted several wounds
upon his assailant, who was sent to
the prison hospital. Both men had
been working in the shoe shop, where
they are thought to have secured
their weapons.

Our City's Guests, This Bank and You

THE MOST important convention of the
year is now in progress in this city—that
of the American Bankers' Association. It
has called together a body of men who
have borne for the past seven years a very heavy
share of responsibility for the welfare of the
nation. Some of these men you know well for
their outstanding services during the war. The
great majority of them, however, you have never
heard of, for they do not figure in the national
news of the day, never-
theless, they are the men
who successfully directed
the financial energy of the
nation from the uses of
peace to those of war and
back again. They are the
men who have assumed
the responsibility of safe-
guarding the accumu-
lated wealth of the people
and of applying that
wealth to constructive
uses within the nation, an
act which has contributed
largely to the profit and
progress of the sections of
its origin. They have
assumed a most difficult
duty requiring a high
degree of wisdom as well
as business judgment
and dependability—and
they have discharged it
worthily.

As you see these men about Los Angeles for
the few days which they are to devote to the con-
sideration of the problems that face them (prob-
lems which are of the utmost importance both to
the individual and to the country as a whole)
remember that the power and wealth which is
theirs have been given them only in trust and as
a reward for their constant and worthy effort in
the performance of a most necessary service.

utility, which makes of every transaction a
partnership based upon mutual understanding
and helpfulness.

The "Citizens" is an institution large enough
to meet the requirements of its ever growing list
of customers, but it is not so large that it forgets
the value of the personal contact. Make it your
bank and business ally.

We list below some of the special departments
this bank has developed and equipped to serve
the people of this section

Commercial Department
Checking Accounts of all types.
Term Account Department
4% Interest, compounded twice yearly
on Time Deposits.
Collection Department
Collections of all kinds effectively handled.
Foreign Department
Foreign exchange bought and sold. Trade and
financial connections with principal cities and
seaports of the world have been made through
personal calls of the bank's representatives.

Public Service Department
Weather and crop reports from 51 sections in the
United States and many other items of infor-
mation constantly on file and available to all.
Economic Research Department
Reports and economic analyses covering both
markets and commodities made on request. A
monthly Financial and Business Summary will
be mailed to anyone requesting it.

Exchange Department
Money transferred to all parts of the
United States.
Bond Department
Special Service for investors. Government Bonds
bought and sold at the market price.
Safe Deposit Department
Individual boxes and storage space in our modern
burglar proof and fireproof vaults for rent.

-a title company with a \$3,500,000.00 capital and surplus

"Bring all the papers to
the Title Insurance and
Trust Company."

It's a phrase you hear daily
in most of the best real estate
offices throughout Los
Angeles County.

And there are many good
reasons. Both parties to the
deal want prompt, reliable
service. The buyer wants a
guarantee of title that he
can depend upon—he
doesn't want to take
chances. He is spending
real money and he wants
absolute safety.

Permit our Escrow De-
partment to serve you. No
other method has ever been
devised that is safer or
more convenient.

High Yield—Tax Exempt

WILLIAMS IRRIGATION DISTRICT SIX PER CENT
SERIAL BONDS are exempt from all State and
Federal Taxes, except Inheritance Taxes.

Issued under the Irrigation District Law of Cal-
ifornia, these bonds are a direct obligation, with
payment protected by a tax lien upon all the lands
of the District, ranking ahead of first mortgages.

Located in the Sacramento Valley, between the
towns of Williams and Colusa, the District com-
prises over 9,000 acres, some \$,000 of which have
been farmed for twenty years.

We recommend these bonds for conservative
investment and shall be pleased to forward full
details upon request.

Vacant Buildings \$1,000 Per Day!

How would you like to pay \$1,000 a day for
rent on an unoccupied building? It might
be even more expensive if, for any reason,
your insured building became vacant for
over ten days. Because that would be sub-
sistent to invalidate your insurance, accord-
ing to the standard form of policy.

The same thing might happen for a num-
ber of other reasons, easily overlooked in
the rush of everyday business.

These and other insurance worries, Cass &
Johansing Insurance Brokers, take off your
hands, and off your mind. We call your at-
tention to the special provisions of your
policies and see to it that they are carried
out in such a way that they are protected
at all times.

There are a number of other phases of our
service, which we'd like to discuss with
you. Let us hear from you.

Bankers' Blanket Forgery

AERICAN Bankers have always wished to purchase their insurance protection from American Companies. Heretofore they have been compelled to go abroad for some of their protection.

The Fidelity and Deposit Company is pleased to announce that it is now prepared to furnish BANKERS' BLANKET FORGERY AND ALTERATION INSURANCE to *any* Bank.

Banks in all parts of this country—in the cities and in the farming districts—have long demanded this coverage. And it is of a most hazardous nature. The growing menace of check manipulation has justly caused apprehension.

This Company, after a most careful study, has developed a way of writing BANKERS' BLANKET FORGERY AND ALTERATION INSURANCE at rates which will be satisfactory to the purchasers.

The Fidelity and Deposit Company again has the privilege of first serving the Banking interests of this country. It is answering a call for a form of protection hitherto withheld.

In doing so it hopes to contribute to the tranquility and strength of the Nation and the Banks.
